Migrate to Nashua ECN's full service offering

Outline

Migration to Full Service offers you the opportunity to [consolidate your telephony environment](#) and allows you to take full advantage of dealing exclusively with a single service provider for your voice requirements.

Having chosen Nashua ECN, as your provider for outgoing voice, you have grown [accustomed to superior call quality and competitive call rates](#). [This relationship has enabled you to achieve substantial savings in call spend](#). In addition, you have also experienced our [high levels of service delivery](#) ensuring customer satisfaction at all times. Nashua ECN would now like to take your telecommunications to the next level.

Geographic Number Portability (GNP) gives you the freedom and ability to [port your numbers to Nashua ECN](#) whilst keeping your existing number range. As a result, you will [receive inbound traffic using your existing Nashua ECN infrastructure](#) and be in a position to [decommission your legacy telephony infrastructure](#). This consolidation establishes Nashua ECN as your exclusive service provider for voice and saves you the frustration and costs involved in maintaining two sets of infrastructure. A further benefit is that Nashua ECN pays [rebates on incoming call traffic](#) creating an additional saving.

Complementing this offering, Nashua ECN has a number of [additional value added services and products](#), such as, Virtual Boardroom (a feature rich teleconferencing product) and Virtual Access (a cost-effective solution to route your 0860 and 0800 numbers).

Features and Benefits

- Receive inbound and outbound calls on your existing Nashua ECN infrastructure
- Realize additional savings with rebates paid on inbound calls
- Reduce monthly costs by decommissioning legacy infrastructure
- Benefit further using Nashua ECN's additional value added services and products

Are you interested in migrating to Full Service?

We [will conduct a due diligence](#) of your existing telephony environment and [propose a suitable solution](#) to cater for your needs. Contact Nashua ECN's sales team by dialling **010 590 0000** or emailing sales@nashua-ecn.com for more information.

"If you are not a customer of Nashua ECN you have selected the wrong vendor as your telecommunications partner" - *Alec Davis, Head of IT, Growthpoint Properties LTD*
